Russia

Dear Colleague,

Below you will find your site number and confirmation code which will be used to download and register your CCDC software; please keep a record of these somewhere safe. If you have an older version of the software installed we recommend that you remove this first before installing a new version. The first time you start up any CCDC software component after you upgrade your existing installation, or when you install the software on a new machine, you will be prompted to register using these details:

Site No.: 5791
Confirmation Code: 8D6266

The software can be downloaded from our website, and the most recent Release and Installation notes will be included with your download. There is also a User Guide in the Support and Resources section of our website under Documentation and Resources. If you do have any questions, please do get in touch with us on: admin@ccdc.cam.ac.uk.

Kind regards,

Josh Dinnewell
